

CodePixelfy LLC

AI Launch Blueprint — Sample

Accelerating your path from idea to production in 30 days

Engagement Overview

The **AI Launch Sprint** is a focused 30-day consulting engagement designed to transform your AI concept into a functional, production-ready MVP. Led by **CodePixelfy LLC**, the process combines strategy, architecture, and implementation leadership to deliver measurable business outcomes.

Key Outcomes:

- Production-ready AI MVP within 4–6 weeks
- Clear system architecture and deployment
- Post-launch support and technical documentation

Architecture Overview

Our modern stack ensures speed, scalability, and maintainability. Each sprint is tailored to the client's data and product needs.

Core Technologies:

- **Frontend:** Next.js, Tailwind CSS
- **Backend:** Supabase, Edge Functions
- **AI Pipeline:** OpenAI API, vector search, summarization agents
- **Deployment:** DigitalOcean or Vercel

Deliverables

Each engagement delivers a complete foundation for scaling your product beyond the MVP stage. All assets are owned by the client after final payment.

- System architecture blueprint
- Core MVP application
- Deployment and handover
- 14-day post-launch support

Timeline Snapshot

Phase	Days	Focus	Output
Kickoff	1–2	Goals, success metrics	Alignment document
Blueprint	3–7	Architecture & scope	System blueprint
Build	8–25	Implementation	Working MVP
Handover	26–30	Deployment + docs	Live system + training
